

**6<sup>th</sup> ERAS World Congress in Stockholm, 23-25 May 2018**

Dear Colleagues and friends!

It is with great pleasure that I would like to invite you to participate to the

**6<sup>th</sup> ERAS World Congress in Stockholm, 23-25 May 2018.**

...

General program attached

The Congress will once again host the leaders in enhanced recovery and perioperative care from different specialties. After a very successful parallel meeting dedicated to ERAS in urology in 2017, with over 50 participants from 10 countries allowing for stimulating and interactive discussions and exchanges with outstanding speakers, this session will be reconducted this year in Stockholm.

The program (enclosed below) is very exciting and will be even more interesting if many of you can attend and actively participate. Do not hesitate to spread the word around you and invite not only urologists but also nurses, anesthesiologists, nutritionists, dieticians, physiotherapists, managers and anybody involved in urological patient's care and willing to improve outcomes.

We certainly hope to see many of you in Stockholm!

Best wishes,

Justin Collins & Yannick Cerantola, for the ERAS-Urology Chapter

Invited Faculty:

YC - Yannick Cerantola - SWI

JBS – Jay Bakul Shah - USA

JC -- Justin Collins – SWE

JMG – John McGrath - UK

JHR – Jill Hamilton-Reeves – USA

SM – Stig Muller – NOR

SD – Sia Daneshmand – USA

## **Urology Group Meeting - Programme**

- 1300-1310** Welcome word: ERAS – urology after “proof of concept”: what’s the next step? – J. Collins (SE) & Y. Cerantola (CH)
- 1310-1345** State of the Art Lecture: Perioperative nutritional support to cystectomy patients – J. Hamilton-Reeves (US)
- 1345-1410** The association of ERAS and robotics gives the best outcomes – J. Collins (SE)
- 1410-1435** The “readmission black box” – J. McGrath (UK)
- 1435-1500** Break
- 1500-1525** Why and how do I reduce patient’s opioid consumption? – J. Bakul Shah (US)
- 1525-1550** ERAS protocol after radical cystectomy – lessons learned after 500 cases – S. Daneshmand (US)
- 1550-1615** Any room for ERAS in other urological procedures? – S. Muller (NO)
- 1615** Closing of the session
